2. Claims 1-72 are pending in this application.

### ***Election/Restriction***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-62, drawn to a method for managing securities market information and effecting a targeted auction, classified in class 705, subclass 37.
  - II. Claims 63-72, drawn to a system for managing securities market information, classified in class 709, subclass 200.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d). In the instant case, invention has separate utility such as:

Inventions I and II have separate utility such as: the invention I drawn to a system and method for a method for managing securities market information and effecting a targeted auction, in contrast, the invention II drawn to a system for managing securities market information in which a CTI user database in communication with a CTI manager via a computer network. Therefore, the invention I and II are shown to be separately usable.
